Planche n°2

Ref : C99049E

Commune d'Etrochey

Assainissement collectif
Plan des réseaux
Branchements particuliers

PLAN DE RECOLEMENT

Echelle : 1/500

SOCIETE ANONYME DE GEOMETRES EXPERTS FLEUROT-MOREL-VIARD

This technical drawing illustrates a sewerage network plan for the Commune d'Etrochey. The plan shows a collection of buildings, some with red outlines and others with green hatching, situated along a road. A network of sewer lines is depicted, including a main line and several branch lines. The lines are color-coded: yellow for the main line, orange for branch lines, and pink for individual building connections. Various labels are present throughout the plan, including 'EUIR' (Elevé Unique Inter-régional) and 'EUIP' (Elevé Unique Inter-prive) with associated elevation and radius data. For example, EUIR 27 has P=206.51 and R=204.98, while EUIP 7 has P=208.98 and R=207.08. The plan also shows a north arrow in the upper left corner and a scale of 1/500. The background features a grid of elevation points marked with 'x' and numerical values.
